International Education Distinction

Rapid socioeconomic development in the era of competitive globalisation may often overlook the emotional and mental wellbeing of those running the race. A healthy population is enriched not only by wealth, but by a strong societal support system to promote psychological health.

The Master of Professional Counselling at Monash University Malaysia is designed to groom professionals of any background into qualified counsellors who wish to fulfill this purpose.

This course prepares students to become registered counsellors who are culturally competent in settings such as community mental health, schools, health centers, workplaces, and in private practice. The course is also suitable for those already working in various professions who may wish to utilise counselling skills in roles such as teaching, social work and human resources.
