

BACHELOR OF COMPUTER SCIENCE IN ARTIFICIAL INTELLIGENCE (C2001) – 2026

(Specialisation : Artificial Intelligence)

Year 1 / Level 1 (48 credit points)

July/Oct Semester	FIT1045 Introduction to programming	FIT1047 Introduction to computer systems, networks and security	FIT1058 Foundations of computing	Elective
February Semester	FIT1008 Fundamentals of algorithms [FIT1045 & (FIT1058 or MAT1830)]	FIT1055 IT professional practice and ethics [12 pts FIT study]	FIT1061 Introduction to artificial intelligence [FIT1045]	Elective

Year 2 / Level 2 (48 credit points)

July Semester	FIT2014 Theory of computation [FIT1008 & (FIT1058 or MAT1830)]	FIT2112 Deep learning [FIT1008, FIT1061]	Elective	Elective
February Semester	FIT2004 Algorithms and data structures [FIT1008 & MAT1830 or FIT1058]	FIT2094 Databases [FIT1045 or FIT1051]	FIT2111 Symbolic artificial intelligence and machine learning [FIT1008, FIT1061]	Elective

Year 3 / Level 3 (48 credit points)

July Semester	FIT3193 Artificial Intelligence project 1 [FIT1055, FIT2004, FIT2094, FIT2111]	FIT3203 Intelligent agents [FIT2004, FIT2111]	*Level 3 Artificial Intelligence Approved Elective	Elective
Summer Semester	FIT3199 Industry work experience (0 credit points) [Completed a minimum of 96 credit points including including 66 credit points of FIT units and FIT1055]			
February Semester	FIT3194 Artificial Intelligence project 2 [FIT3193]	FIT3191 Generative artificial intelligence [FIT2004, FIT2112]	Elective	Elective

List of elective units offered at the School of Information Technology, Monash University Malaysia.

The following electives are offered at both the Australia and Malaysia campuses. If you intend to apply for the [global intercampus program](#), please refer to the [course handbook](#) for electives which are offered specifically at the Australia campus. In addition to the minimum one level 3 artificial intelligence approved electives, you can utilize the elective slots in the course map to enrol for additional level 3 artificial intelligence electives.

Apart from the listed electives below, you may opt to enrol for electives offered by other courses at Monash University, provided that you fulfil the unit prerequisites.

Level 1 Electives

FIT1043 Introduction to data science
FIT1051 Programming fundamentals in JAVA
FIT1056 Introduction to software engineering

*Level 3 Artificial Intelligence Approved Electives

FIT3183 Malicious AI and dark side security
FIT3192 Emerging and advanced topics in artificial intelligence

Level 2 Electives

FIT2081 Mobile application development
FIT2093 Cybersecurity tools and techniques
FIT2099 Object oriented design and implementation
FIT2100 Operating systems
FIT2101 Software engineering process & management
FIT2102 Programming paradigms
FIT2107 Software quality and testing
FIT2109 Computer science workshop
FIT2179 Data visualisation

Level 3 Electives

FIT3003 Business intelligence and data warehousing
FIT3077 Software engineering: Architecture and design
FIT3080 Artificial intelligence
FIT3134 Entrepreneurship
FIT3143 Parallel computing
FIT3152 Data analytics
FIT3154 Advanced data analysis
FIT3155 Advanced data structures and algorithms
FIT3159 Computer architecture
FIT3175 Usability

BACHELOR OF COMPUTER SCIENCE IN ARTIFICIAL INTELLIGENCE (C2001) – 2026

(Specialisation : Artificial Intelligence)

Additional Notes

Credit points	Unless specified, all units are worth 6 credit points Bachelor of Computer Science in Artificial Intelligence 24 units x 6 credit points = Total of 144 credit points
Year Level Requirements	1) Normally 48 points and a maximum of 60 points of first year level units will be counted. 2) At least 36 points must be completed at third year level.
Unit requisites	All pre-requisite and co-requisite requirements must be undertaken to be able to enrol into a specific unit.
Duration of degree	3 years full-time
Course duration	You have a maximum of 8 years to complete this course including any periods of intermission and suspension and must be continuously enrolled throughout.
Monash University handbook	Students should follow the course requirements for the year the course was commenced https://www.monash.edu/students/handbooks/faculty-info/undergrad/it

While the information provided here was correct at the time of viewing and/or printing, you should carefully read all official correspondence and other sources of information for students to stay informed about any changes.

The placement and offering of units may be rearranged or revised based on school resources or faculty planning.

If you opt for an overseas exchange program, you may need to either overload a semester, undertake a summer unit or extend an additional semester in order to complete your course. Please consult the course coordinator.
