

# Master of Data Science (C6004) – 2026 (with Foundation units)

## Industry experience stream – July Intake [2 Years]

### Year 1 (48 credit points)

|                        |   |   |   |   |
|------------------------|---|---|---|---|
| July Semester (S2)     | <b>FIT5125 (S1, S2)</b><br>IT research and innovation methods | <b>FIT9136 (S1, S2)</b><br>Introduction to Python programming   | <b>FIT9137 (S2)</b><br>Introduction to computer architecture and networks | <b>MAT9004 (S1, S2)</b><br>Mathematical foundations for data science and AI |
| February Semester (S1) | <b>FIT9132 (S1)</b><br>Introduction to databases              | <b>FIT5145 (S1, S2)</b><br>Foundation of data science [FIT9136] | <b>FIT5147 (S1)</b><br>Data exploration and visualisation                 | <b>FIT5197 (S1)</b><br>Statistical data modelling [FIT9136 and MAT9004]     |

### Year 2 (48 credit points)

|                        |  |   |  |                                    |
|------------------------|--|---|--|------------------------------------|
| July Semester (S2)     | <b>FIT5057 (S1, S2)</b><br>Project management  | <b>FIT5196 (S2)</b><br>Data wrangling [FIT9136]                                     | <b>FIT5202 (S2)</b><br>Data processing for big data [FIT5145 or FIT5047] | <b>Data Science elective unit*</b> |
| February Semester (S1) | <b>FIT5120 (S1, S2)</b><br>Industry experience studio project (12 points) [Completion of 72 points, Co-requisite: FIT5122] | <b>FIT5122 (S1, S2)</b><br>Professional practice [Co-requisite: FIT5120 or FIT5127] | <b>Level 5 Elective</b>  |                                    |

## \*\* Research stream – July intake [2 Years]

### Year 1 (48 credit points)

|                        |   |   |   |   |
|------------------------|---|---|---|---|
| July Semester (S2)     | <b>FIT5125 (S1, S2)</b><br>IT research and innovation methods | <b>FIT9136 (S1, S2)</b><br>Introduction to Python programming   | <b>FIT9137 (S2)</b><br>Introduction to computer architecture and networks | <b>MAT9004 (S1, S2)</b><br>Mathematical foundations for data science and AI |
| February Semester (S1) | <b>FIT9132 (S1)</b><br>Introduction to databases              | <b>FIT5145 (S1, S2)</b><br>Foundation of data science [FIT9136] | <b>FIT5147 (S1)</b><br>Data exploration and visualisation                 | <b>FIT5197 (S1)</b><br>Statistical data modelling [FIT9136 and MAT9004]     |

### Year 2 (48 credit points)

|                        |  |   |   |  |
|------------------------|--|---|---|--|
| July Semester (S2)     | <b>FIT5126 (S1, S2)</b><br>Masters thesis part 1 [FIT5125] | <b>FIT5057 (S1, S2)</b><br>Project management                           | <b>FIT5196 (S2)</b><br>Data wrangling [FIT9136]                                     | <b>FIT5202 (S2)</b><br>Data processing for big data [FIT5145 or FIT5047] |
| February Semester (S1) | <b>FIT5127 (S1, S2)</b><br>Masters thesis part 2 [FIT5126] | <b>FIT5128 (S1, S2)</b><br>Masters thesis final [Co-requisite: FIT5127] | <b>FIT5122 (S1, S2)</b><br>Professional practice [Co-requisite: FIT5120 or FIT5127] | <b>Data Science elective unit*</b>                                       |

|            |                       |                   |
|------------|-----------------------|-------------------|
| FOUNDATION | CORE MASTER'S STUDIES | ADVANCED PRACTICE |
|------------|-----------------------|-------------------|

### \*\* Research stream requirements

- To be eligible for the research stream, students must have successfully completed 24 points of level five (non-foundation) FIT units and have:
  - achieved an overall average of at least 80% across all level 5 units
  - achieved at least 75% in FIT5125 IT research and innovation methods, and
  - achieved an overall course average of 70%.
- Entry to the research stream is by application only. Students will be notified when applications open for each intake. Research stream information: [https://www.monash.edu/it/current-students/enrolment/honours-and-minor-thesis#tabs\\_3708338-02](https://www.monash.edu/it/current-students/enrolment/honours-and-minor-thesis#tabs_3708338-02)

### Important:

- Co-requisites and Pre-requisites units are subject to change. Please refer to the relevant [Monash unit handbook](#).**

### List of elective units offered at the School of Information Technology, Monash University Malaysia

The following electives are offered at both the Australia and Malaysia campuses. If you intend to apply for the [global intercampus program](#), please refer to the [course handbook](#) for electives which are offered specifically at the Australia campus. In addition to the Data Science elective unit, you can utilize the Level 5 FIT elective slots in the course map to enrol for Data Science elective unit.

Apart from the listed electives below, you may opt to enrol for Level 5 electives offered by other courses at Monash University, provided that you fulfill the unit prerequisites.

#### Level 5 FIT elective

|         |  |
|---------|--|
| FIT5047 | Fundamentals of artificial intelligence      |
| FIT5206 | Digital continuity                           |
| FIT5215 | Deep learning                                |
| FIT5217 | Natural language processing                  |
| FIT5222 | Planning and automated reasoning             |
| FIT5226 | Multi agent systems and collective behaviour |

#### Data Science elective unit\*

|         |                  |
|---------|------------------|
| FIT5201 | Machine learning |
| FIT5230 | Malicious AI     |

## Master of Data Science (C6004) – 2026 (with Foundation units)

### Industry experience stream – July Intake [2 Years]

#### Notes

|                                   |   |
|-----------------------------------|---|
| <b>Credit points</b>              | Unless specified, all units are worth 6 credit points<br>Master of Data Science: 16 units x 6cp = Total of 96 credit points   |
| <b>Year Level Requirements</b>    | 1) A maximum of 24 points of level 9 (foundation) units will be counted;<br>2) At least 72 points must be completed at level 5.   |
| <b>Unit requisites</b>            | All pre-requisite and co-requisite requirements must be undertaken in order to be able to enrol into a specific unit  |
| <b>Duration of degree</b>         | 2 years full-time, 4 years part-time  |
| <b>Time limit</b>                 | Time limit = 6 years. Students have six years in which to complete this award from the time they commence. Periods of intermission are counted as part of the six years.  |
| <b>Monash University handbook</b> | Students should follow the course requirements for the year the course was commenced<br><a href="https://handbook.monash.edu/browse/By%20Faculty/FacultyofInformationTechnology">https://handbook.monash.edu/browse/By%20Faculty/FacultyofInformationTechnology</a> |

***While the information provided here was correct at the time of viewing and/or printing, you should carefully read all official correspondence and other sources of information for students to stay informed about any changes.***

***The placement and offering of units may be rearranged or revised based on school resources or faculty planning.***

***If you opt for an overseas exchange program, you may need to either overload a semester, undertake a summer unit or extend an additional semester in order to complete your course. Please consult the course coordinator.***
