

Monash Climate Change Communication and Research Hub and Node: A Workshop

Date: 23 May 2022

Location: 6214

Time: 09:30am – 12:00pm (MYT)

Registration: [Eventbrite link](#)

Assoc Prof David Holmes,
Founder & Director of
MCCCRH

Dr Azliyana Azhari,
Postdoctoral Research Fellow,
Monash Malaysia node

The Monash Climate Change Communication Research Hub (MCCCRH) at Monash University Australia researches and implements best practice approaches to communicating climate change, in partnership with leading science and media organisations.

In 2021, a Malaysia node of the MCCCRH was established. The purpose of the node is to conduct evidence-based research across communications, social science and biophysical science that is able to inform climate communication programs in Southeast Asia.

This workshop presents the work of the hub and the node and aims to invite feedback and discussion about possibilities for developing the node.

Ella Healy, Operations Manager,
MCCCRH

Dr Lucy Richardson,
Postdoctoral Research Fellow,
MCCRH
