Information technology is revolutionising the way we communicate, the way we conduct business and the way we relax. Our courses are of the highest standards and our graduates are seen as premium IT professionals.
The Department of Psychology at Monash University Malaysia is dedicated to producing graduates who are capable to handle human-related matters, and address the challenges faced by contemporary societies. The Department particularly aims to train students, who are curious about human behavior and experience, critically think about themselves, and sensitive to gender, ethnicity, class and race-related differences. The courses offered by the Department are designed to ensure that the students are able to comprehend the discourse of the discipline, present a persuasive argument on relevant topics, develop interpersonal skills, and learn the ethical principles of psychological research and practice.

The department offers a range of undergraduate and postgraduate courses including the Bachelor of Psychological Science, a comprehensive psychology program that will equip students with the knowledge and understanding of the psychological theories and research, the Bachelor of Psychological Science and Business, an applied psychology program which combines the psychology and business components, the Bachelor of Psychological Science and Business (Honours) that trains students to undertake independent research and offers pathway to postgraduate studies, the Master of Professional Counseling which provides the students with the skills and knowledge necessary for counseling practice, as well as the research Doctorate (PhD, Psychology).

Students undertaking psychology courses are exposed to multiple mediums of learning including lectures, lectorials, tutorials and labs, where they are encouraged to actively engage in debates and open discussions. The Psychology program introduced a computerised interactive teaching tool called MyPsych Lab in most of psychology units. To best achieve the learning goals, numerous modes of assessment such as online quizzes, exams, reports, presentations and lab journals are used to track students’ development in multiple domains.

The academic team teaching psychology at Monash University Malaysia is actively involved in research on a variety of topics. The psychology team has received competitive external grants and all have published in internationally recognised journals and edited volumes.

Besides the core Psychology courses offered by the Department, students may opt to pursue an arts degree with a major in Psychology, offered by the School of Arts and Social Sciences, or a science degree majoring in psychology offered by the School of Science.

**RANKING AND RECOGNITION**

51-100 for Psychology

QS World University Rankings by Subject 2016

Bachelor of Psychological Science, Bachelor of Psychological Science and Business, and Bachelor of Psychological Science and Business (Psychology) (Honours) are all accredited by the Australian Psychology Accreditation Council. Master of Professional Counselling is fully accredited by the Australian Counselling Association and the Psychotherapy & Counselling Federation of Australia.
The Bachelor of Psychological Science is designed for students who wish to study psychology intensively over a three-year period, with a view to pursuing a career as a research or professional psychologist. In the three years of the degree, students will cover the core areas of the scientific discipline of psychology, as well as being able to pursue their specific interests in a range of areas relating to the application of psychology. By completing this degree the students will gain in-depth knowledge of how studies on psychology, cognition, emotion, society and the self can be applied to help with enhancing human lives. The Bachelor of Psychological Science contains an Australian Psychology Accreditation Council (APAC) accredited Psychology sequence of units. Students who graduate with a Bachelor of Psychological Science will be eligible to apply for entry to other fourth year programs in psychology, such as Honours, or Master of Professional Counselling.

Students will enhance their ability to develop careers in psychology through the development of effective interpersonal and communication skills, the mastering of essential research design procedures, statistical analyses and methods of written and oral communication relevant to the field of psychology. Students will also develop a better understanding of pure science and social science through this program and apply the knowledge to their learning in psychology.

**ACCREDITATION**

This course is fully accredited by the Australian Psychology Accreditation Council (APAC).

**AREAS OF STUDY**

- Psychology and its application in a Global context

**COURSE STRUCTURE**

The course comprises 144 points, of which 126 points are focussed on the study of psychological science and 18 points are free electives. Units are generally six points.

The course develops through three themes:

**PSYCHOLOGY FUNDAMENTALS AND FOUNDATIONAL SKILLS**

This will develop your understanding of core areas of psychology, including knowledge of the theoretical and empirical basis of our current understanding of human psychology.

**RESEARCH METHODS AND CRITICAL THINKING**

This will assist you to develop an understanding of the scientific method and use this knowledge in order to critically evaluate contemporary and historical claims relating to human behaviour and mental processes and to apply this knowledge to the generation of new research questions.

**PSYCHOLOGY IN PRACTICE AND SOCIETY**

This is the component of the course through which you will develop further skills and knowledge in psychology or study units in supporting disciplines that underpin your particular area of focus for practice.

CAREER OPPORTUNITIES
Upon graduation, career opportunities are vast for graduates with qualifications in both business and psychology. They include organisational psychologist, human resources manager, industrial relations consultant, market researcher, public policy adviser, training and development coordinator and international business manager.
Upon successful completion of the bachelor’s degree, students can opt to extend their studies for an extra year. This is a unique opportunity for students to develop their skills as a junior researcher and it prepares them for the transition into pursuing a higher degree such as Doctor of Philosophy (PhD) and Doctor of Psychology (DPsych) as well as Masters in Psychology courses, such as Masters in Clinical Psychology or Masters in Organisational Psychology.

Students with an Honours degree in Psychology from Monash University Malaysia can apply for Higher Degree by Research (HDR) or PhD programs directly.

PREREQUISITES
Applicants must possess a bachelor’s degree and a major sequence in psychology accredited by the Australian Psychology Accreditation Council or a qualification assessed as equivalent by the council.

Ordinarily, those who pursue the Bachelor of Psychological Science and Business (Psychology)(Honours) program are students who would have completed the Bachelor of Psychological Science and Business or its equivalent.

ACCREDITATION
All Psychology honours degrees at Monash University Malaysia are fully accredited by the Australian Psychology Accreditation Council (APAC) and approved by the Psychology Board of Australia (PsyBA).

COURSE STRUCTURE
This course consists of two assessed components - supervised research project as well as coursework seminars and lectures. Students also participate in a series of skills workshops. The course builds on knowledge gained in the undergraduate psychology major.

- PSY4100 Research project
- PSY4210 Statistics and Research Design for Professional Psychology
- PSY4220 Ethical and Professional Issues in Psychology
- PSY4270 Psychological Assessment and Intervention
- PSY4110 Psychology in Society

Students enrolled in the Bachelor of Arts (Honours) and Bachelor of Science (Honours) also follow the same Honours course structure. These courses are also accredited by the Australian Psychology Accreditation Council (APAC).

CAREER OPPORTUNITIES
• Students completing this program are well prepared to undertake further studies towards clinical practice or research. Graduates who wish to practise as a psychologist will need to undertake further studies and supervised training.
The Master of Professional Counselling in Monash University Malaysia is a skill-based course suited to those with an interest in counselling. It is taught by academics with extensive experience of working as professional counsellors/psychologists.

This course is designed to prepare students to become registered counsellors in settings such as community mental health, schools, health centers, workplaces, and in private practice. The course is also suitable for people already working in various professions who may wish to utilise counselling skills in roles such as teaching, social work and human resources. A distinctive feature of the course is its focus on preparing students to be culturally competent counsellors in Malaysia and the region.

This course requires students to undertake 504 hours of clinical placements, including a minimum of 192 hours of client contact. Through these mandatory placements, students have an opportunity to apply theory to practice under supervision in clinical settings.

### Professional Recognitions

This course is fully accredited by:
- Australian Counselling Association (ACA)
- Psychotherapy and Counselling Federation of Australia (PACFA)

This course will also be submitted for accreditation by:
- Malaysian Board of Counsellors (Lembaga Kaunselor Malaysia)

### Career Opportunities

On completion of the course, graduates should be able to work as counsellors with an advanced level of knowledge, and be cognisant of the professional issues involved in undertaking counselling as a profession in Malaysia and the region. Graduates would be able to work in settings such as community mental health clinics, schools, health centers, workplaces and in private practice.

---

### Master of Professional Counselling
